

The Breakthrough: SAERTEX-LINER® Type S⁺

The innovative GRP-Liner with the highest mechanical properties!

- **Extremely high mechanical properties**
- **Better handling through lower weight**
- **Shorter curing time**
- **Even more economical**
- **Also available as SAERTEX-LINER® Premium Type S⁺**

Short-term circumferential E-Modul (ring stiffness)	≥ 2,973,000 PSI
Long-term circumferential E-Modul (ring stiffness)	2,320,000 PSI
Short-term bending E-Modul (three-point bending)	≥ 2,436,000 PSI
Short-term bending strength (three-point bending)	≥ 39,160 PSI
Long-term bending strength (three-point bending)	30,450 PSI
Reduction factor A after 10 000 h	1.28
Dimension range	6" - 64"
Wall thickness in cured condition	3 mm - 15 mm
